B24 SCHEDULES at EiBi, Aoki/NDXC and HFCC are now linked from WOR homepage http://www.worldofradio.com

** ALGERIA. 17600, Oct 27 at 1456, S6/S7 song, 1458 French ID for Ifrikya FM – this remains a major TDA frequency in B24. Excessive registrations at http://www.hfcc.org/data/schedbyfmo.php?seas=B24&fmor=TDA show Béchar site on 17600, 13640, 9500, 11620; Ouargla on 13790, 9700, 6040, 15160 (Glenn Hauser, OK, WOR)

** ALGERIA. 17600, Oct 30 at 1450 direct, and at 1907, 2033 into UTwente, NO signal from Ifrikya FM, which is HFCC registered at 0700-0100! Others do report it in their mornings after 0700, but when does it really stop?

``An English segment was heard today, 30 October, at 0753 on 15160 and 17600. Called "Living Legends" (or perhaps "Living Legends Never Dies"), this episode was talking about a woman (couldn't catch the name) involved in the conflict between Algeria and France from the 1830s.

Also today, 30 October, from 1030 to 1045 (and still on 15160 and 17600) was a studio "roundtable-style" discussion in English about the "digital landscape" (encompassing education, social affairs and social media), with a short musical break midway through the discussion. Alan Roe, Teddington, UK`` in the WOR iog; and:

``I heard them yesterday (29 October) on 17600 kHz (didn't check 15160) with a talk in English at 0743 about the Afar people and their cultural heritage. Difficult to follow at times due to the presenter's accent. Reggae music followed up until the news in French at 0800. 73's Tony Rogers, Birmingham, UK`` in the BDXC-news iog (Glenn Hauser, OK, WOR)

** ARGENTINA. 28193 CW, Oct 25 at 2206, VVV DE LU2DT, beacon, same as logged Sept 30, q.v. Band is full of beacons and phones (Glenn Hauser, OK, WOR)

** BONAIRE. 24955 USB, Oct 25 at 2214, PJ4KY calling QRZ Japan, and causing co-channel pileups. QRZ.com: ``PJ4KY Bonaire flag Bonaire, Bert Van Oort, All QSL Via M0URX, Kralendijk, Bonaire`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28309 USB, Oct 26 at 2208, ZZ5K with quick contest contacts. QRZ.com: ``ZZ5K Brazil flag Brazil, Contest Special Callsing {sic} OP PP5RT, Rua Rio Ganges 130, Rio Do Sul, SC 89161510, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 28170 CW, Oct 25 at 2204, VVV DE VA3XCD/B, slow beacon marker repeating, same as logged at same time Oct 14, q.v.; and again, 10m band is chock-full of more beacons and phones (Glenn Hauser, OK, WOR)

** CHAD [non]. 9535, Oct 28 at 0608, YL in language with stingers, S5/S7. Per EiBi this is now R. Ndarason International in Kanuri, 06-07 via Woofferton UK (Glenn Hauser, OK, WOR)

** CHINA [non]. 5910, Oct 28 at 0313, no signal from CRI relay via La Habana as now sked at 0300-0500 per HFCC, ex-9790. COLOMBIA is long-gone from 5910 but still in Aoki, not EiBi (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040, Oct 24 at 0640 UT, ``whooper`` QRM vs WHO, a

typical Cuban defect. WRTH has only one, 10 kW R. Mayabeque, Güines (Glenn Hauser, OK, WORLD OF RADIO 2266)

** CUBA. 15230, Oct 26 at 2218, S9+10 of open carrier and trace of modulation, RHC finally making a comeback to usual uselessness following hurricanes and apagones nacionales (Glenn Hauser, OK, WOR)

** CUBA. 7335, Oct 28 at 0307, pulse jamming against nothing, since R. Martí is now on 7355, and 7435. So the jamming is back, wasting precious pesos of electrical energy. RM changes its 7 MHz usage per season for no obvious reason, but confusing incompetent jammers who don`t pay attention to HFCC. RM so strong that cannot tell if jammed (Glenn Hauser, OK, WOR)

** CUBA [non]. 13820, Oct 30 at 1448, S9/+20 of open carrier as Grimesland is warming up for R. Martí at 1500-2100, always B-season frequency instead of 13605 A-season. No jamming audible yet on either (Glenn Hauser, OK, WOR)

** GUIANA FRENCH. 28445 USB, Oct 26 at 2213, FY5FY, quick contest contacts including N7RVD. QRZ.com: ``FY5FY French Guiana flag French Guiana, DIDIER BIRONNEAU, 35 rue LEOPOLD HEDER, BP 57026, CAYENNE CEDEX 97307, French Guiana`` 10m is fuller than usual but only up to 28.7 MHz or so, the top MHz mostly vacant (Glenn Hauser, OK, WOR)

** ITALY [non]. 7290.002, Oct 30 at *1857, IRRS `Milano` via ROMANIA or BULGARIA on with tone, then dead air, S9+10/15, 1900 s/on as ``7285`` and into anti-abortion gospel huxter. So now it *is* announcing wrong frequency. QRM situation: until 1857, 7290 is CRI; from 1857, 7295 is CRI, with heavy ACI to IRRS now on 7290, while nothing is on 7285 or 7280 = so IRRS should have stayed on 7285! if it`s going to be at 19-20 UT instead of 18-19 in A-season, which we expected and is now shown on NEXUS/IBA sked (Glenn Hauser, OK, WOR)

** JAPAN. 7380, Oct 29 at 0705, Japanese S9+20/30 direct. NHK from Yamata 0700-0900 for S America: a very strange transmission at 4-6 am local in Brasil, Argentina, Uruguay, even earlier elsewhere. Are JJ ethnix typically early-risers? OTOH, hits Hawai`i on the way at only 9-11 pm local (Glenn Hauser, OK, WOR)

** MALI. 13630, Oct 26 at 2220, S9+10/20 of Chinese language lessons in French, as CRI Bamako scheduled 2130-2230 to East Africa. ?? No FF ex-colonies there unless stretched to Rwanda/Burundi, Djibouti - hmm, the latter important to the ChiCom with a base there (Glenn Hauser, OK, WOR)

** MEXICO. 800, Oct 30 at 0658, still heavy distorted QRM from XEERG, NL, to nearby KQCV OK (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 17675, Oct 24 circa 0640, JBA carrier from RNZP, as has been the case lately, hardly propagating like it was for a while. B24 schedule changes a lot but stays on 17675: AM daily: 1651 11725, 1759 15720, 2159 17675, 0659 13755, 1259-1650 7390. DRM daily except Saturdays: 1651-1758 9780, 1759-2058 13840 (Glenn Hauser, OK, WORLD OF RADIO 2266)

** NORTH AMERICA. 6925 USB, Oct 27 at 0302, S9+10/20, OPOB, with novelty jingles, name I can`t be sure of: ``Radio Dallas``? ``Radio Damnung``? ``Radio Denmark``? ``got to go``, with reverbs, yells past 0307. Then I check HFU: unIDs more than 2 hours earlier, SSTVs of a baby; only one log around my time; was the ID word Jammer?: https://www.hfunderground.com/board/index.php/topic,135716.0.html ``S9+10 with the Traverse City, MI KiwiSDR. 0300 UTC-Radio Jammer AI generated song`` from Lucas Bandura, BC, who hasn`t posted to the WOR iog for quite a while (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 USB, Oct 28 at 0306, S9+10/20 of jazz, the OPOB. These say it`s Wasteland Radio, a.k.a. Dilligaf Radio: https://www.hfunderground.com/board/index.php/topic,135802.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Sat Oct 26 at 0657, Station YHWH on very late again, Josiah JBA S8. Also noted independently by Ron Howard at 0637 until 0737*; as well as Walt Salmaniw, Eric Fetters-Walp (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Oct 27 at 0309, presumed Station YHWH, JBA (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.9, Oct 26 at 0149, JBA signal presumed pirate Hikari FM. Seldom can I get enough for direct listenability.

6960 AM, also JBA carrier here, since it`s UT Saturday, presumed Ball Smacker Radio on usual schedule. Stronger than a JBAC on 6925 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.9, Oct 26 at 2221, JBA signal presumed Hikari FM on signature offset, allegedly in Mexico; altho I see Rick Barton, AZ, classifies it as USA. If really just across the border in Sonora, Rick should be in 11 MHz skip zone, not getting him so well -- or, close enough for groundwave? (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.9, Oct 29 at 2214, JBA carrier, presumably pirate Hikari FM on signature offset (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 960, Oct 24 at 0632 UT, local KGWA Enid in C2CAM but considerable CCI and a pronounced SAH, adding up to S9+42. Only a few km away, this is unusual: must be on reduced power, yet air not deadened. Also echoing C2CAM from an understation, most likely WERC Birmingham AL per NRC AM Log altho there are a few others at greater distances, lesser powers. However, Log does not have KGWA as C2CAM station; may have started later after August closing (Glenn Hauser, OK, WOR)

** OKLAHOMA. 27224.8 and 27185.1 approx., Oct 25 at 1454, Enid CB pirate relaying 105.5 gospel music on K288FX, translator of K-Love, KYLV 88.9 OKC. Can barely make them out vs all the skip/local QRM (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.1, still not on air yet, but getting closer, new LP station in Enid to block KICT and KQCV, not to mention 95.3 KOKC, but Benn Kobb sends latest info on callsign: ``KOKJ-LP granted callsign for Enid station.``
https://fccdata.org/?facid=&call=kokj
Licensee is Radio Media LTD, 701 N Grand St, 73701; 580-554-0392
(Glenn Hauser, Enid, WOR)

** PORTUGAL. 21449 USB, Oct 27 at 1451, CR6T calling QRZ and making quick contest contacts, barely inside the ``15`` mb. Such a call implies Portuguese colonies but now this is merely Portugal, QRZ.com: ``CR6T Portugal flag Portugal, RUI SANTOS (TONY), QTA DO VALE - SILVEIRINHO, PENACOVA 3360, Portugal``. His CQ zone is 14, i.e. western Europe.

[non] Meanwhile the adjacent 13 m SWBC band is absolutely empty tho lotsa Eurosigs could obviously propagate if energized. Axually 21449 is in the *13*, not 14, not 15 m band, the boundary between 13 and 14 about 21321 kHz. At 1451, HFCC B24 shows all these could/should be on air with somethings: 21470, 21485, 21490, 21540, 21560, 21575, 21600, 21615, 21630, 21690, 21800, 21840. Imaginary stuff (Glenn Hauser, OK,

WOR)

** PUERTO RICO. 391 MCW kHz, Oct 26 at 0630, ND beacon DDP, San Juan/Dorado, 1 kW, often inaudible, but now with better signal than a bunch of USA ones, q.v. (Glenn Hauser, OK, WOR)

** ROMANIA. 9545, Oct 27 at 0312, classical music VG S9+30/40, Spanish announcement from RRI; and also slightly weaker on 9740. As in HFCC B24, from Galbeni and Tsiganeshti; but also listing 7205 & 11800 resp.; are they on too or still on reduced usage? (Glenn Hauser, OK, WOR)

** ROMANIA. 11930, Oct 29 at 0655, RRI English signing off, S6/S8 direct. Per EiBi, RRI is the only station foolish enough to choose this Cuban jammer frequency! None heard now, but when capable, often runs all night despite Martí on here only in daytime. 0630-0700 only, Galbeni to W Europe, so also thisaway (Glenn Hauser, OK, WOR)

** SPAIN. Ken Zichi, who also monitors SNR English broadcasts and must do a lot of post-broadcast online research to get details, identifies the Lebanon correspondent as: ``Elsa Yazbek Charabati (I guess she got married!)``.

17855, 17715, 15520, 15390, again on Friday Oct 25 at 2200, REE continues in Spanish instead of token English, same as happened Wednesday. Then and now, online program sked still claims it should be in English today. Despite VG reception on NAm frequency direct, I`m so pissed I don`t even try to listen for content. What`s going on with them, blowing away English without notice? I have not paid attn if they announced email for the English dept., and can`t find it on website.

Next chance will be Monday Oct 28 at new time of 2300 and frequency 9690, 11940, 12030, 17755. One sked version from REE itself shows 17775, presumably a typo (Glenn Hauser, OK, WOR)

** SPAIN. Mon Oct 28 at 2245, REE found NOWHERE into UTwente or Maryland SDRs, on A24 17855, 17715, 15520, 15390 nor B24 9690, 11940, 12030, 17755 frequencies! There have been some R1 blackouts per WWV but there ought to be at least traces of something. Of course, I was preparing to check if English would occur at B24 time of 2300, especially on B24 for NAm, 9690. ¡¿Qué pasa?! (Glenn Hauser, OK, WOR)

** SPAIN. Checking REE program info via the WOR Hitlist, we see that there are no English podcasts since 22 Oct = UT Mon Oct 21 at 2200; yet the ``hoy`` Tuesday Oct 29 program alleges there is/was English at 0000 & 0400 local = 2300 & 0300 UT - when no SW frequencies were on air! Altho some blackouts had occurred, there were other signals audible on the bands around 2300. There is a certain disconnect among the program producers, the SW operators, and the websiters.

Tue Oct 29 at 1620, into UTwente, bigsigs in Spanish on 12030 and 17755, ME and Africa beams which start at 1600 M-F. 9690 & 17715 for N&S America start at 1900 weekdays. Confirmed at 1917 into UTwente, JBA direct, 17715 slightly better than 9690, which is really too low for a daypath at this hour: too drastic a drop from 18 to 10 MHz. UTwente also hears 17755 poorly, not direct. But shall there really be any token English at 2300 M/W/F? (Glenn Hauser, OK, WOR)

** SPAIN. 9690 & 12030, Wed Oct 30 at 2318 check, NO TOKEN ENGLISH, SFR still in Spanish instead, both fairly audible direct, probably about the flash-flooding disaster. Both VG into UTwente and JBA on 17715, 17755. As I reported, NO frequencies were on air when English should have appeared Monday Oct 28 after 2300. But, earlier Wed: ``An English podcast has now been uploaded (on 29 Oct for the UT Mon 28 Oct

programme). Alan Roe, Teddington, UK`` Here it be with subject:
https://www.rtve.es/play/audios/english-language-broadcast/world-menopause-day-raising-awareness-of-womens-health/16307489/
(Glenn Hauser, OK, WOR)

** TURKEY. 11785+, Oct 25 at *2159.5, JBA carrier cuts on direct from VOT English, but gone again by 2201 after I check Spain and RMI; and no come back, another try-but-fail, nothing even unto UTwente at 2227 check; and not on 9875 either, possible overrun from previous transmission. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.008-, Oct 26 at 2203, VOT not off the air, olds in English, S9+10/20 direct. Into UTwente when measured at 2232, S9+45/50 with music, nothing but music until 2254 s/off as if 17620, 2255 IS to 2255.6*. From tomorrow for B24 should change to 5960 at 2300. Did they warn listeners about this abrupt total change? Of course not! No doubt the s/on/off of the 5960 will assert it`s at 1330 on 13635 (Glenn Hauser, OK, WOR)

** TURKEY. 6125 S9+35/45 // weaker 7285, Oct 27 at 0417 music on B24 English frequencies of VOT now in effect, no more at 0300 on 7275 > 6165 (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 9610, Oct 27 at 2205, VOT English new time from 2130, and frequency, with `Letterbox` theme - just starting? NO, ending. S9+20/25 into UTwente but heavy CCI. B24 EiBi shows CNR8 in Mongolian, 100 kW, 286 degrees from Beijing site at 2055-0600. TRT should have avoided this frequency.

5960.004-, Oct 27 at 2300, TS and s/on VOT English to NAm, new time and frequency for B24, S9+35/40 into UTwente, but there is an understation. This time it`s PBS Xinjiang, Urumqi in Mandarin, at 2300-0300 per EiBi, 2330-1800 per HFCC. I know this will be unusable direct: yes, at 2307 S8/S9 below the noise level, but Urumqi probably not a problem here. They need to have a `shoulder` season with something less drastic than a drop from 12 to 6 MHz. Also, domestic clock changes should not be imposed upon international listeners.

`Letterbox` starts at 2314, with another hostess, Sylvia? Says they are trying different program presenters each week. Mentions that frequencies have changed but no details, look them up somewhere. I try to copy those called but as usual hard to understand the names. 1) Burnett?, England. 2) Christer Brunström, Sweden, 20/10 report, again against the multi-lingual ID filler reels, but guess what: VOT are adding some more langs, including Norwegian, Korean, Japanese! for total of 47. 3) India, about the Dewali festival. Music break at 2323. 5) Mohamed Bashir?, Pakistan. 6) Ricky Hein, from a phone call, wants skeds. 7) Graham?, Indiana. 8) Chris ---, Canada. Closing with PO Box 33 address again, instead of 333 - which is correct? Does not spell Yenishehir. 2332 music. 2335 L`Box outro (Glenn Hauser, OK, WOR)

** TURKEY. 9650, Oct 28 at 0606, YL in Turkish presumed news, with stingers, S6/S8 direct; at 04-07 per EiBi, i.e. ex-13635 which was easy every night but not logged (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960, Oct 28 at 2258 and still 2309, NO signal from VOT English to us, which succeeded yesterday, but plenty signal from Xinjiang PBS into UTwente, 5960.000 with Chinese music, dead air, 2300 5+1 TS and Xinjiang ID in Mandarin, i.e. EAST TURKISTAN. TRT should QSY ASAP if they can even get on the air, but they need to inform everyone whereto. I tuned UTwente around between 5800 and 6000, not encountering any obvious TRT. Something`s always awry at Ankara and/or erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960.003-, Oct 29 at 2259, Chinese music with interruptions, 2300 timesignal and Mandarin announcement, S9/+15 into UTwente: much like yesterday, no trace of VOT English to us (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.004-, Oct 30 at 2318, strong signal direct on indoor antenna during OK thunderstorm, must be VOT back after absent two days. Yes, into UTwente at 2322 when measured, English at S9+25/35; 2332 starts `The Middle East and Turkey`. 2340 music. 2344 `Sports Panorama`. 2352 s/off as if 13635 at 1330-1430 --- something`s always awry at Ankara, and IS: now I can hear some CCCCCCI underneath, which would be PBS Xinjiang, Urumqi, EAST TURKISTAN, land of imperialist ChiCom cultural genocide against Uyghurs and other Moslems. 2356 restart VOT IS with German IDs twice a minute. Something`s always erroneous at Emirler. Off at 2358* uncovering Urumqi, mentioning ``Wulumushi`` multiple times, frequency/relay listing? Briefly this seems to have CCI of IS from some religious broadcaster, but nothing else scheduled starting or stopping now. 0000 into CNR1 relay (Glenn Hauser, OK, WOR)

** U K [non]. 11810, Oct 30 at 0645, S6/S9 English about Cameroon: it`s BBC via ASCENSION this hour only. Jordan also pretends in HFCC to be on 11810 at 0500-0830 (Glenn Hauser, OK, WOR)

** U S A. 245 kHz MCW, Oct 24 at 0643, 400-watt ND beacon FS, Sioux FallS SD, only somewhat unusual barely overcoming noise level (Glenn Hauser, OK, WOR)

** U S A. LW/MW ND beacon bandscan, still a struggle vs local noise level, but I note every frequency even if only a carrier, to be guessed, from dxinfocentre.com NDB listings, Oct 26 from 0618 UT in A2/MCW:

227, JBA carrier; closest: TNZ Walnut Ridge/Lawrence County AR, FZ St Louis MO
245, FS, Sioux Falls SD
251, AM, Amarillo TX
255, SW, Stillwater OK
272, two mixing? closest: LD Lubbock TX, RU Austin TX, OLY Olney IL?
305, RO, Roswell NM
326, MA, Midland TX
329, PMV, Plattsmouth NE
332, IC, Wichita KS
335, KV? - now it`s 0627. CV, Clovis NM or BV, Batesville AR?
338, JBAC, RYN Tucson AZ heard before
341, JBAC, not EI Enid; DNI Sherman/Denison TX or OIN Oberlin KS
365, AA, Fargo/Harwood ND
375, JBAC, DS Searcy AR? or LF Lafayette LA or LQ Springfield/Lincoln IL? [see next report]
379, RU, really RUE Russellville AR
382, JBAC, MW Marion IL or SP Springfield IL? or YPL Pickle Lake ON heard before but not enough to perceive even a dash
385, JBAC, HO, Hot Springs AR?
391, DDP, see PUERTO RICO
395, CA, Newton/Harvs KS
400, JBAC, AHQ Wahoo NE? heard before
404, JBAC, HU Hutchinson KS
407, HRU, Herington KS
515, PN, Ponca City OK
(Glenn Hauser, Enid OK, WOR)

** U S A. 375 MCW kHz, Oct 27 at 0702, NDB DS is JBA, enough better than last night to be sure of ID, from Searcy AR (Glenn Hauser, OK, WOR)

** U S A. 28208+, Oct 26 at 2205, short dash and VVV VVV DE AK2F/B - alternating with same but different call, WN2A/B. WGB list: ``28208 WN2A/AK2F - Budd Lake NJ USA FN20ou - #0/1 (17 Oct 2024) Note: Alternating IDs both /B - Tx homebrew antenna vertical A-99 pwr 3w - 320m asl -- QRZ.com: ``AK2F USA flag USA, HAYWOOD S PEITZER, 10 BERRY LN, RANDOLPH, NJ 07869, USA, 10 Meter Beacon with WN2A on 28.208`` and:

``WN2A USA flag USA, MICHAEL J MASTERSON, 7 HUDSON RD, BUDD LAKE, NJ 07828-2607, USA -- Co-own 10 meter Beacon with AK2F (28.2082 MHz-FN20ou). Homebrew system in operation "continuously" since March 1997 - see`` http://www.qsl.net/wn2a/beacon.html

10m beacon band is crammed again, and so is phone with CQ WW DX Contest -- I log only an FY5 and a ZZ5 --- too much! (Glenn Hauser, OK, WOR)

** U S A [non]. 9775, Oct 28 at 0312, VOA English with African accent, about *rump being called fascist, S9+10/20. Now sked at 03-05 via BOTSWANA and per Aoki, *jammed because can be heard in China, where ESL is unfortunately rampant (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2265 monitoring: confirmed UT Thursday October 24 at 0130 on WRMI 5010, S9/+20 into Bonaire SDR.

WORLD OF RADIO 2266 contents: Algeria, Australia, Austria and non, Brasil, Bulgaria, China, Cuba ad non, Denmark, Egypt, Europe, France, Germany, Greece*, Guam, Guatemala, Iceland and non, India, *Italy non, *Japan and non, *Jordan, (Lithuania), Malaysia, (Mongolia), (Morocco), Myanmar non, *Netherlands, *New Zealand, North America, (Poland), *Romania, *Spain, (Taiwan), Thailand, *Turkey, (UK), USA and non, Vanuatu, Zambia; propagation outlook - (countries mentioned along with others not in order) *with B24 schedules

** U S A [and non]. WORLD OF RADIO 2266 monitoring: NOT confirmed Friday October 25 at 1300 on WRMI 15770, new time appearing on their schedule; rather fill music at 1302 & 1322 chex. I have enquired about this. {see below: yes, supposed to be}

Confirmed Friday October 25 at 2030 on IRRS SW via AM Italia, 1322.995+, S8 into UTwente.

Also confirmed Friday October 25 at 2200 on WRMI 9955 S9+20 including local noise level direct, and undermodulated = JBA.

Also confirmed Friday October 25 at 2229.5 on SW Radio, Germany, 3975.003, S9/+5 into UTwente. Next:

0300 UT Saturday WTWW 5085 [see below];
0930 UT Saturday WRMI 9455 to WNW [has been off elsewhen];
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2300 UT Saturday WTWW 9475 [suspended?];
0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];

{European time changes start here}
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last week];
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1400 UT Tuesday WRMI 9955 to SSE [NEW, to be confirmed];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2266 monitoring: altho not aired Fri Oct 25 at 1300 on WRMI 15770, Jeff White says it shall be going forward.

Confirmed UT Saturday October 26 at 0300 on WTWW 5085, VG S9+15/22 into Maryland SDR.

Not confirmed Sat Oct 26 after 0930 on WRMI 9455 as I happened to awaken, as this transmitter is still off the air.

Not confirmed Sat Oct 26 after 1430 on SW Radio, Germany, 6160 into UTwente, has been replaced by Pop Shop Radio.

Confirmed Saturday October 26 at 1600 on WRN North America stream.

Confirmed Saturday October 26 after 1730 on SW Radio, Germany, 6160.001+, S9+10/15 into UTwente but with ACI from 6164 RTTY dittering as usual at this hour and also splash from 6165 CRI English from Beijing site to ME this hour only - but plenty more 6165 usage scheduled. AND, 3975.003-, S9+5/10 in the clear. From next week: 1830 instead, on 3975 only.

Also confirmed Saturday October 26 from 1931 on WA0RCR, 1860 AM, Wentzvlle MO, VG S9+17 into nearby Warrenton MO SDR.

Still not confirmed Sat Oct 26 at 2300 on WTWW 9475, still on restricted schedule, not on air now. Next:

0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];

{European time changes start here}
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last week];
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0100 UT Tuesday WRMI 9955 [reported, not confirmed]
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1400 UT Tuesday WRMI 9955 to SSE [NEW, to be confirmed];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2266 monitoring: confirmed UT Sunday October 27 at 0000 on WRMI 9955, S8/9+5 into Bonaire, not VG but no jamming audible.

Also confirmed UT Sunday October 27 at 0339 on WA0RCR, 1860 AM, MO, S9+15 into Georgia SDR, about 10 minutes into so started circa 0329.

WOR sked now updated for new times in Europe, not yet North America: http://www.worldofradio.com/radioskd.html

SW Radio, Germany, Andy clarifies: ``Concerning 3975 from 0800 to 1700 UT: we will start one or two weeks later, as we have to do some aerial maintenance during European daylight. I will let you know about possible WOR airings. This is the hopefully correct sched for WOR as of today:

2330 UT Friday SW Radio, Germany 3975;
1530 UT Saturday SW Radio, Germany 6160;
1830 UT Saturday SW Radio, Germany 3975;
2230 UT Sunday SW Radio, Germany 3975;

0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
1730 UT Thursday SW Radio, Germany 3975;
73's Andy``

{European time changes start here}
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last week];
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0100 UT Tuesday WRMI 9955 [reported, not confirmed]
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1400 UT Tuesday WRMI 9955 to SSE [NEW, to be confirmed];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2266 monitoring: confirmed Sunday October 27 at 2000 ex-1900 on IRRS SW via AM Italia, 1322.995 kHz, S9 into UTwente across Europe; after 7285 s/off announcement, not checked yet whether really on 7290 in B24.

Also confirmed Sunday October 27 at 2230 ex-2130 on SW Radio, Germany, 3975.003+, S8/9+5 into UTwente.

Also confirmed Sunday October 27 at 2330 on WRMI 7780, S9/+15 into S Texas SDR, like last week instead of scheduled 7570, remaining absent.

Also confirmed UT Monday October 28 at 0030 on WRMI 7780, S9+10/15 into S Texas SDR.

Also confirmed UT Monday October 28 at 0302 on Area 51 via WBCQ 6159.93, S9+10/20 direct but including noise level so JBA: all I can do is recognize the WOR theme, not which episode I intro.

Missed checking Mon Oct 28 at 2030 on SW Radio, Germany, 3975, as we were on the road from Artesia; anyone hear it?

[``Heard Glenn Hauser's World of Radio on 9855 presumed WRMI 0110 UT. Weak and fadey into Crump, TN 10/1 using a small Sihuadon R108. Kevin Redding, Crump, TN, ABDX``

I just saw this as gmail sidetrax some msgs - surely you mean 9955, a WRMI frequency? News to me that WOR would be on at that time, 9 pm EDT Monday, when their sked shows Alameda Bible Fellowship. Can you confirm or reconfirm this?]

Not confirmed UT Tue Oct 29 at 0100 on WRMI 9955, usual Alameda Bible Fellowship audible into Brazil SDR as sked tho a quadriweek ago someone allegedly heard WOR at that time. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];

1400 UT Tuesday WRMI 9955 to SSE [NEW, to be confirmed];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2266 monitoring: confirmed UT Tuesday October 29 at 0330 on 7780, S9+10/15 into Louisiana SDR.

Also confirmed Tuesday October 29 at 1300 and AGAIN new at 1400 on WRMI 9955, S5/S8 JBA direct, but at 1428 into Georgia SDR, S9+35!

Also confirmed Tuesday October 29 at 2100 on IRRS SW via AM Italia, 1323 kHz, fair into UTwente, on timer recording. Next:

2330 UT Tuesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2266 monitoring: confirmed Tuesday October 29 at 2330 on WRMI 9395, S9+10/20 into Maryland SDR [from next week: UT Wednesday 0030].

Also confirmed UT Wednesday October 30 from 0029.6 on SW Radio, Germany, 3975.003, S9+20 into UTwente.

Also confirmed Wednesday October 30 at 2030 on SW Radio, Germany, 3975.003-, S9/+5 into UTwente.

Also confirmed Wednesday October 30 at 2100 on WBCQ 7490 -65 Hz = 7489.935, S9/+5 into Maryland SDR. From next week: 2200. Next:

0130 UT Thursday WRMI 5010 to S; {confirmed}
1730 UT Thursday SW Radio, Germany 3975.

As a noncommercial service, financial support welcome such as a contribution via PayPal, not necessarily in US funds, to woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A. WTWW: ``Glenn, A transmitter operator is scheduled to be at the transmitter site, the first of the year. He and his wife are excited to be at the site and operate the transmitters. His presence will eliminate small problems that have prevented normal operation of the transmitters. Some of these problems cannot be corrected by remote control. He has started to move his furniture and personal items in. I will not have to remember your Friday night program and keep the transmitter ON. George McClintock 10-25-2024`` (Glenn Hauser, OK, WOR)

** U S A. 17790, Oct 24 at 1904, WRMI R. Africa noted for first time since Hurricane Milton, S6/S7 relinglish (Glenn Hauser, OK, WORLD OF RADIO 2266)

** U S A. 17790, Oct 26 at 2217, gospel huxter in English, S9+30, surely WRMI-7 much stronger than usual, and on air beyond nominal 2100*. Maybe R. Africa Network making up for lots lost time tnx to Milton and a couple weeks` silence (Glenn Hauser, OK, WOR)

** U S A. 9455, Oct 25 at 0635, WRMI-5 is OFF again despite 24-hour schedule (Glenn Hauser, OK, WOR)

** U S A [and non]. WHAT`S GOING ON WITH WAVESCAN, from Ray Robinson:

``Hi, Glenn. We haven't communicated in some time, but I trust you are well. You may be interested in some of the fallout from AWR's decision to end the use of all shortwave relay sites.

Jeff White and I were provided with the new schedule for KSDA about 10 days or so ago, and the immediately obvious thing was that there were no English language programs on the schedule at all, including no Wavescan. We have sought clarification from a number of people at AWR, but have not received any response. No one at AWR has informed us that Wavescan has been canceled, but it seems that is their intention, at least in so far as their own platforms are concerned. Jose Jacob in India has confirmed that Wavescan was not broadcast via KSDA on Sunday, and furthermore this week's edition has not been posted on AWR's podcast page (https://awr.org/program/engmi_wav).

However, the show will very much continue in production with Jeff and I, just as before, but I guess now just as 'Wavescan' and not 'AWR Wavescan' any longer. To be clear, neither Jeff nor I have any association with AWR, or with the Seventh Day Adventist Church. Dr. Adrian Peterson, Wavescan's Founder and Editor-in-Chief did of course, but he is now in his mid-90's, and he retired from any active involvement with the show some 18 months ago.

So, we are now in active negotiations to get the show carried by one or two other shortwave stations with coverage into Asia. It will continue on WRMI, WWCR, VOH-Africa and IRRS. And, there is now a new podcast platform for the show, at:
https://wavescan.podomatic.com

This has the shows from the past couple of months, including the edition that aired yesterday on some stations.

We see Wavescan as complementary to what you do on WOR, and not as a competitor. I hope you'll help us get the word out that Wavescan is continuing, and where it can be found.

Thank you, Ray Robinson, Los Angeles, Strategic Communications Group, Voice of Hope World Radio Network, www.voiceofhope.com ``

My reply: ``Ray, Good to hear from you. Certainly I will publicize what is happening. It seems you have been treated rather shoddily. I`m not that surprised since it has long seemed to me that AWR HQ considered WS not really part of AWR, not including it on official schedules, at least when aired on non-AWR stations. I agree our programs are complementary with your emphasis on history and mine on the latest info. 73, Glenn`` (Glenn Hauser, OK, WOR)

** U S A. 3265+ & 5130-, Oct 25 at 2358, no signals of WBCQ into Maryland SDR - NH SDR is closed for some contest. 7490 -66 Hz = 7489.934, S9+10/15, FKB gets one-minute warning and quits, Chariots of Fire theme, IDs, and 0000 Oct 26 `WTO` opening `AAAWWW`; no disclaimer but immediately obvious it`s a rerun of last week, as Allan says his gorgeous wife dresses up for the radio, and they survived H. Milton a week ago.

Larry Will tells me: ``Good signal, s20, from Monticello on 7490 at 0000, with a repeat of last week's show from Florida. Al and family suffered a great tragedy this week when the potato barn he owns at the junction of Route 1 and Britton Road burned to the ground on Monday night.``

Monticello fire destroys $500,000 worth of antique cars
https://thecounty.me/2024/10/23/business-news/monticello-fire-destroys-500000-worth-of-antique-cars/
Story starts with photo and this caption:

``MONTICELLO, Maine -- October 23, 2024 -- A Monday night fire at an old potato house in Monticello was a total loss. The blaze started in this end of the building where an office and Sea of Green Inc, a medical marijuana caregiver business, was located. The second floor of the building vanished. (Kathleen Phalen Tomaselli | Houlton Pioneer Times)``

``1 comment Ronald Ouellette a day ago edited --- Ahhhh as they say, up in smoke, a little more than Antiques. Growing indoor weed takes a lot of juice and the electrician was asleep`` (Glenn Hauser, OK, WOR)

** U S A. 4840, UT Sun Oct 27 at 0315, WWCR again with `Australian DX Report`, Bob Padula. It`s different than previous ones, but still OBVIOUSLY OVER FOUR YEARS OLD, from mid-2000. Prop report: IPS Sydney says 10.7 cm flux is about 70; SS number 5; two SS regions in view and another one soon; very low; HF prop above 10 MHz after dark unreliable.

Then his routine logs, 2030/2100 UT on the 31 and 49m bands. I copy them all for amusement and historical record but will not foist them all upon you again; they include 9420 Voice of Greece, lots of CRI and CNR1, who cares even then? Also a partial Reach Beyond Australia schedule. 0325 a bit of music, then once again notifies that HFCC for Bulgaria in August has been canceled due to COVID-19, will be online only. And gives partial ``B-20`` -- there, he said it, sked for International Radio for Disaster Relief [which AFAIK, has NEVER been activated despite plenty of disasters]. ``I hope you found this interesting and helpful`` -- NO, WORSE THAN NO! Way to go, disservice WWCR. BTW they carried WORLD OF RADIO for many years, which was full of accurate timely info every week, but how should they know? They gave it up but keep this?!?! (Glenn Hauser, OK, WOR)

** U S A. 15150, Oct 27 at 1453, S9 Yahweh stuff: WMLK have finally come to their senses or consulted Propagation 101, that higher frequencies are best for day paths, lower for night. Until B24, 15150 toward Europe was running late in the night and 9275 in the daytime, local afternoons. But now the HFCC sked is: 12-17 15150, 1730-2230 NEW 17525, 2300-0400 9275, all 300 kW at 53 degrees daily except 7=Sabbathday. So they are allowing one semi-hour to accomplish frequency changes? Off 15150 by 1700. At 1735, NEW 17524.999 is on, S9/+15 into UTwente with amateur hymnody; preacher thru 1800 with no ID. 1829 DEJOM himself outroes, ID. But they can`t make his ghost say ``17525``? AI not? (Glenn Hauser, OK, WOR)

** U S A. 9275, Oct 28 at 0311, WMLK with DEJOM, S9+20/37 direct, stronger than neighbor in more ways than one, 9265 WINB. Now sensible frequency usage at night, ex-15150, but why target Europe where it`s 3 or 4 am? (Glenn Hauser, OK, WOR)

** U S A. 17525, Oct 29 at 2159, WMLK still going with DEJOM, S9+30/40 if really off the back direct, presumably about to close for laborious retune to 9275 (Glenn Hauser, OK, WOR)

** U S A. 660, Oct 24 at 0636 UT, NO C&W loud and clear but mix of

weaker signals, so KTNN AZ must axually be on night pattern protecting WFAN, unusual (Glenn Hauser, OK, WOR)

** U S A. 1060, Oct 29 at 0640 UT tune-in, ID as ``The music you grew up with, WQNZ? 1060 and 93.5 FM``, more mentions of WQNZ? and area code 931. NO, per NRC AM Log, it is really WQMV, Waverly TN, 4 WATTS at night, 1000 daypower, U1 non-direxional. Waverly is west of Nashville, about halfway to Arkansas (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1539.95 approx., Oct 28 at 2200, obvious het vs 1540.00 stations. Nothing this far off in mwoffsets, but I remember a few years ago KGBC Galveston TX was showing up exactly here; a bit early before sunset now but maybe not too early on hiband. See my report of Oct 11, 2020 at 0055. At 2330 I check the W5GMD Houston KiwiSDR, but it appears to be deaf on MW: can`t even hear or see 740 KTRH! Try Maurice LA SDR: signal pileup on 1540 but low audible het and SAM does read out -22 to - 95 Hz. IIRC KGBC has had a number of problems last few years (Glenn Hauser, OK, WOR)

** U S A. ``Glenn, regarding 1540 kHz: KGBC is now running a Spanish language Tropical music format branded as “Power 105.3”. The station was recently off the air for a few days, but is back now. KGBC is nominally the originating station for translator K287BQ in Houston. KGBC is audible at my NW Harris County location during the day, but no usable night reception as it is lost in the co-channel pileup on the frequency. Stephen Luce, Houston, Texas``

Stephen, Tnx for info. I could not match programming to skewed frequency but can you tell if it`s about 1539.95 in the daytime? (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Oct 26 at 0654, R. Vanuatu gone again; nor 7260. Ron Howard also reports it absent today (Glenn Hauser, OK, WOR)

** VATICAN [and non]. 25700, Oct 24 at 1418, S5/S7 in language, i.e. Hausa from BBC via SMG at 1400-1430 M-F only. Logged for the record. Not violating Separation of Church and State as both UKQOGBANI and Vatican are theocracies. Vatican apparently has no problem doing business with Church of England heretix. OSOB, nothing audible on 25800 where LP Denmark could be 24h; per Aoki, only other 11m activity is 25900 at 1200-1230 daily, BBC French via Madagascar. EiBi adds the LP Russian on 25900 and USA broadcast auxiliary relays, all apparently inactive, on 25910, 25950, 25990, 26110, 26190, 26450. I frequently check 26110 for KMK282, of KOVR/KMAX Stockton/Sacramento, the last one active, not heard since Nov 28, 2023.

HFCC B24 as of Oct 22 shows some other intriguing possibilities on 11m, if they ever happen:
25700, 1400-1430 M-F BBC Hausa will be via Woofferton instead
25795, 25800, 25805, 24h alt channels for 10 kW WMR Denmark
25820, 1400-1500 daily but irr. DRM from Issoudun, France
25850, RON, Luxembourg in Portuguese, 1 kW, 24h
26000, Spaceline, Bulgaria, 24h 50 kW at 306 to W Europe
26010, IRDR Vatican placeholder, 100 kW to all CIRAFS, 24h
26040, new 1 kW FNA Berlin in German, 24h
(Glenn Hauser, OK, WOR)

** VATICAN. 15490, Oct 27 at 1455, S Asian song S8/S9. HFCC B24 shows VR in Tamil at 1450-1510, between Hindi & Malayalam, 250 kW at 89 degrees, another example of SMG putting far too much signals in wrong direxions -- antenna azimuths messed up or simply insufficiently screened backwards? (Glenn Hauser, OK, WOR)

** YEMEN [non]. 11934.894+, Oct 27 at 1930, S9+25 into UTwente, ME music and Arabic talk from Rep. of Yemen R., via SAUDI ARABIA, remains

very reliably offset like this, and with no chirping for a long time. Riyadh abstains from HFCC (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.46 approx., Oct 26 at 0647 UT, carrier/het upon 810. Nothing so far at mwoffsetts; anyone hearing this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7570, Oct 29 at 2217, JBA carrier direct; could WRMI be attempting a comeback? But at 2241 into Maryland SDR, no broadcast audio, just dittering. EiBi reminds us 7570 could be Canadian HF trading ute, or V. of Korea. 9455 WRMI remains silent (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9945-9970 approx., Oct 24 at 0128, OTH radar clickery QRMing 9955 WRMI amid, as heard via Bonaire SDR; 25 kHz bandwidth, typical of Russia? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21460.05 approx., Oct 29 at 2208 JBA USB, sounds like ham QSO in English, maybe two stations; hams out of band, or spurs? Hardly necessary with very little occupancy below 21450 tho surely propagable if 28 MHz is (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21725.0, Oct 24 at 1903, JBA carrier direct, the OSOB. Nothing listed anywhere around here; I also get local birdies obvious on vacant bands, but they land on odd split frequencies, yet this one is exact so suspect it`s real (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 25570-25580, Oct 26 at 2214, weak DRM noise vs CODAR pulses at 2/second. I don`t have DRM capability, but earlier today this was reported as KTWR GUAM. Earlier I could not get anything on Pacific-area SDRs where KTWR should have been propagating. Discussion about this on the WOR iogroup with Chris Mackerell, NZ:

``That isn`t even in the 11m SWBC band, starting at 25600 - Glenn``

``If the "Test 2" tab is being pressed this is a DRM self-test sample built in to the KiwiSDRs, so not a real signal at all. Cheers, Chris``

``The "KTWR" will almost certainly be reckless clicking of buttons in the KiwiSDR. The Kiwis have two short DRM recordings built-in so users can experiment with settings. "Test 1" plays a recording of BBC with Journaline, "Test 2" plays a recording of KTWR with slideshow. These will play regardless of what frequency the Kiwi is tuned to. I expect someone saw this DRM-like signal (nothing visible here in NZ around 22:45 UTC), and was clicking buttons to see what happens and magically "decoded" KTWR 🙂 --- Based on your hearing it along with CODAR I'd suspect a DRM-like utility broadcast of some type rather than a broadcast standard DRM signal. Cheers, Chris``

``OK - I can see digital hash on 25575 kHz via the KPH HF Kiwi. http://198.40.45.23:8073/ --- If it is DRM it is wider than standard broadcast DRM its 18 or 20 kHz wide so would be undecodable with the Kiwi anyway. Cheers, Chris`` at 2255 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 26111.1, Oct 25 at 1450, something very distorted and weak, seems like a broadcast, not resolvable by FM, AM or SSB tuning. I was checking for 26110 FM, KMK282, broadcast auxiliary in California. Have long had carrier about here, presumed local birdie, But not even that was audible around 2200 check (Glenn Hauser, OK, WOR)

UNSOLICITED TESTIMONIAL. Kudos to Fred Studenberg in Melbourne, Florida, producer of the no longer available BST-1 SW car radio. It`s remote-controlled only by a key fob link on 433.92 MHz, but I lost it on an outing! Fred very kindly replaced it for me at no cost, which

also involved sending the radio back to him for reprogramming. Website is still up where you may read all about it; maybe find one on used market?
